SITE SPECIFIC WORKSHOP
From Monday 22nd to Friday 26th July 2019
With Pascale Lecoq and Carlos García Estévez
Assisted by Paige Allerton and Olmo Hidalgo

www.ecole-jacqueslecoq.com
This workshop proposes to discover nature through movement. It will explore through movement, spaces, forces, directions and time in a given environment.

The surrounding landscape will be our stage and our theatre.

The forest and the plain: two opposing spaces. Small and large. Shadow and light. Inside and outside: places that can be observed through our five senses.

For visual and dramatic interventions in landscapes.

The workshop will be organised around:
- Observation of nature and plastic art form transpositions.
- Physical preparation and movement analysis

This workshop is for any artist (artists working in plastic mediums, scenographers, actors, stage directors, circus artists…) as well as for students who have already followed the LEM course and are eager to discover new directions.

This workshop is multi-lingual: French, English, Spanish and Italian.

Tariff: **850 euros**. Comprising 6 hours per day, including food and accommodation, as well as all modelling materials needed for plastic arts.

**To apply:** please send your CV, a letter of motivation and an ID photo to contact@ecole-jacqueslecoq.com

AFDAS payment possible.
